May 2022 – Nov 2022

Roles Responsibilities:

- Built apps using Salesforce tools including Apex classes, Email alerts, and Approval processes.
- Focused on creating responsive UI and automation flows.

ABOUT ME

I'm Tonimesh Mondal, a frontend developer with a focus on React.js and modern CSS frameworks. My journey started in backend basics but I soon discovered a passion for clean, interactive UI. I enjoy tackling JavaScript challenges and building user-friendly interfaces. I'm constantly learning and excited to grow as a full-stack engineer.
